

# 6 Thinking Hats

Model as conceptualize by  
Edward de Bono

## Blue Hat

The blue hat serves as the 'control center'. It organizes the thinking process, sets the agenda, ensures the rules are adhered to, and summarizes what has been learned.

## Black Hat

The black hat signifies caution and defensive thinking. It's used to point out potential flaws, risks, and obstacles in ideas or plans.

## Green Hat

The green hat represents creativity, growth, and new ideas. It encourages out-of-the-box thinking and exploring innovative solutions.

## White Hat

The white hat represents neutral and objective thinking, focusing on facts, figures, and data.

## Yellow Hat

The yellow hat is all about optimism and positivity. It focuses on the benefits and the feasibility of ideas.

## Red Hat

The red hat allows the expression of emotions, feelings, intuition, and hunches without needing to justify them.
